

The content of these two points are not tasks limited to any particular Jesuit or any one committee, but should be a concrete task of every member and every community of the Province. Moreover, I hope we will get the cooperation and support of many persons at various levels so that this mission will be an important element of all our institutions and apostolates. In order to promote this mission, especially after distribution of the "Special Report on Ecology: HEALING A BROKEN WORLD," I shall be asking for your practical cooperation.

In conclusion, I pray that by relating positively to these two tasks we may contribute to the coming of God's kingdom.

Sincerely, in Christ,

梶山 義夫

Kajiyama Yoshio, S.J.
